

## **Stater Global Markets Shortlisted for FX Week's Best Prime of Prime Provider Award**

**27 June 2017** - Stater Global Markets has been selected as a finalist in the Best Prime of Prime Provider 2017 category in the prestigious e-FX Awards organised by FX Week.

The award recognises the best of breed credit intermediation provider for smaller firms and the most comprehensive and satisfactory service provider in the Prime of Prime space.

Ramy Soliman, CEO, Stater Global Markets, comments, "To be recognised as one of the best Prime of Prime providers in the industry within our first year of trading is a huge achievement. FX Week's e-FX awards are respected across the industry and being shortlisted in a highly competitive category is a powerful endorsement of our market leading offering and the capabilities of our team."

Stater Global Markets launched in October 2016 having spotted a gap in the market for a true credit intermediation, liquidity and technology solution for institutional clients. Since October, the FCA regulated brokerage has established a credible business model, with excellent technology partners and strong relationships with Prime Brokers and Liquidity Providers.

The winners will be announced on 12 July 2017 at the Metropolitan Club in New York. For more information about the e-FX Awards, please visit [www.fxweekfxawards.com](http://www.fxweekfxawards.com)
